**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

✓ - In claim 1, line 10, change "the mobile radio field" to --a mobile radio field--.

This change was made to provide a proper antecedent basis.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Claim 1 recites a multifunction antenna comprising a chassis having leading region and a trailing region, at least four antennas arranged in a prescribed sequence on the chassis: the antenna for receiving the terrestrially emitted signal arranged at the leading region of the chassis, followed by the antenna for determining the geoposition, the antenna for receiving satellite signals, and the antenna for the mobile radio field, wherein the center to center distance between the terrestrial antenna and the adjacent antenna for geopositioning antenna is smaller than center to center distance between the geopositioning antenna and the adjacent antenna for receiving satellite signals, the center to center distance between geopositioning antenna and the adjacent satellite antenna is smaller than center to center distance between the satellite antenna and the adjacent antenna for mobile radio field.

None of the prior art shows or suggests this multifunction antenna.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
